Web developer with a solid foundation in both frontend and backend technologies. Currently pursuing a Bachelor's degree in Information Systems (GPA: **3.55**) and experienced in developing responsive web applications using Larevel, Tailwind and React through personal projects and workshops. Interested in building efficient, maintainable code and improving user experience through functional design and performance optimization.

EDUCATION

Universitas Bina Sarana Informatika

BS in Information Systems (GPA: 3.55)

Kota Bekasi, Indonesia

Expected Graduation Date: 2027

- Relevant Coursework: Web Development, Database Management, Project Management.

HIGHLIGHTED PROJECTS

iPhone 15 Pro – Website Clone

May 2025

- Built a fully responsive and interactive iPhone 15 Pro webpage replica, showcasing a **3D model with real-time lighting and animation**, attracting over **500+ demo views** within the first month.
- Implemented advanced **3D rendering** using Three.js with optimized textures and assets, achieving smooth performance across **90%+ of modern browsers**.
- Created immersive **scroll-based animations** with GSAP, enhancing user engagement and mimicking Apple's product transitions with **60 FPS smoothness**.
- Used React for modular code structure and Tailwind CSS for consistent, mobile-first design, reducing development time by **30%**.
- Live Demo: <https://iphone15-delooooonp.vercel.app/>

Delooooonp – Personal Portfolio

May 2025

- Created a fully responsive and animated portfolio site with a **GSAP-powered preloader and smooth page transitions**, boosting average time-on-site to **2.5+ minutes**.
- Designed a clean 3-tab structure (Projects, Resume, Contact) with optimized mobile responsiveness, achieving **100% usability** across major screen sizes.
- Enhanced user engagement by integrating **interactive project cards** using Tilty.js, increasing hover interaction by **40%** based on session replays.
- Added a **dark/light theme toggle** using React state management, used by **65% of returning visitors**.
- Built a fully functional **email contact system** via EmailJS, with a tested **95%+ deliverability rate** and **10+ real user submissions** in the first month.
- Live Demo: <https://delooooonp.vercel.app/>

SKILLS & INTERESTS
